

seta

Escrito por madcow - 08/03/2010 16:04

bueno , voy a ponerme a hacer una seta pa la typhoon... pero dada mi falta de herramientas para trabajar la madera(y mi torpeza intrinseca ...pa que mentir) he rapiñado algunos materiales por la oficina ...

prometo reportaje fotografico para vuestro descojone general

a no ser que el resultado sea mas penoso todavia de lo esperado con lo cual os quedareis con las ganas de ver el experimento

Para seta de descojonarse mira la que le fabrique yo para la turca, (ultima generaci3n, un soporte de disco externo de pc con una funda para MP3 made in chinoslandia rellena de balines de reciclaje). Todo por menos de 1,5 Leurazos :laugh: :laugh: :laugh:

ahhh ya sientes el aliento

el concepto es modular , para adaptarse a la diferencia de altura existente entre virginia y yo, elaborado en materiales de ultima generacion, y cuenta con el asesoramiento de una prestigiosa ingeniera foranea de un importante grupo internacional referente mundial en diseo e I+D

el prototipo va despacio.. pero est3 ...

esta claro que las manualidades no son lo mio

ademas con el peazo siesta que me echao ..ya voy con retraso como las obras del AVE

seguiremos informando
